

## ABOUT KABOOM

Founded in 2005, we, at Club Kaboom, believe in motivating athletes to always strive for their very best and to reach for their absolute goals. At Club Kaboom, our mission is for each child that comes through our program to learn more than just great volleyball skills. The hope is that each child will also learn great life lessons while participating in our program. At Kaboom, we exercise strong discipline and positive reinforcement and provide a great family atmosphere for the players and parents alike. It is more important to help the girls to develop into great young women and collegiate players than it is to win every single game at all cost and with no consideration for their future development!

Many of our girls require financial assistance to keep up with the rising costs of training and travel and are in desperate need of financial assistance to attend college. For the 2011-2012 season, Club Kaboom will enroll between 100 to 200 girls into the program. We continue to seek funding through corporate and individual sponsors, numerous club fundraisers (such as lock-ins, jewelry sales, Kaboom shirt sales, etc.), skills camps, and participant fees. With sponsorship support and fundraisers, we are proudly able to assist those in need and in turn, help some girls obtain college scholarships that might not otherwise attend college. We have a remarkable coaching staff with many former collegiate and international players that are positive role models for the kids.

As a 501c3 non-profit organization, any donations may be considered tax-deductible according to your personal tax situation. Thank you for your support!
